Yercuad Main Road, Kannankurichi, Salem - 636008.

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

Our college believes in providing student centric approach and the teachers also act as a stimulant to inculcate the learning process. Teachers modify the pedagogy rules to suit the needs of the students.

Participative Learning: All faculties use lecture method to deliver their subject so that the students have a strong foundation in the respective subjects. Later the students are also given an opportunity to present papers on the related subjects to have a participative learning. They are given class exercise like group discussion to enhance participative learning.

Problem Solving Methodologies: Every semester, for all the subject's students are assigned to analyze a problem and a decided case to enhance their problem-solving techniques and they are also asked to present the same before the class. This enhances the co-operative learning and make them think decisively and evaluate the possible solutions
